

SMOKING POLICY

We are committed to a safe and healthy work place environment for all of our employees, visitors and clients. Health authorities worldwide have documented the detrimental effects of smoking and passive smoking and it is for this reason that CREANDSEL PTY LTD has adopted a smoke free work environment.

The following are all strictly no smoking areas.

- Near any fire hazards or hazardous substances
- Near air-conditioning vents
- In the staff room or lunch areas
- Stairwells and in the work areas
