

## **SUN PROTECTION POLICY**

We are committed to the health and safety of our employees and in the light of growing research on the detrimental health effects of sun exposure we have developed this policy.

Any of our employees who work outdoors need to take certain precautions to protect themselves from the harmful effects of the sun's ultra violet rays.

The implementation of this policy requires all outdoor workers to be responsible and vigilant in the protection of their own skin from skin cancer.

This policy and the Sun Protection Procedure have been based on information from the Workplace Health and Safety Queensland.
